Portfolio: carl-joshua-portfolio-ten.vercel.app | GitHub: github.com/CJoshuaDJ

SUMMARY

Junior software engineer with production experience building responsive web applications using React and TypeScript. Comfortable with API integration, SQL fundamentals, Git/GitHub workflows, CI/CD, and QA-minded testing. Shipped personal projects with live demos and public source. Seeking junior software or application developer roles.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, C#, Python, Java, C++, HTML, CSS, SQL
Frontend: React, Tailwind CSS, Responsive Design, Component-Based UI
Backend & Data: Node.js, REST APIs, JSON, SQL, Supabase
Tools & Delivery: Git, GitHub, Pull Requests, Code Review, GitHub Actions (CI/CD), Vercel, Software Testing / Manual QA

PROFESSIONAL EXPERIENCE

Junior Software Engineer — Lightreach (Contractual)

October 2025 – April 2026

- Developed and maintained responsive web interfaces across client projects (including NetRanks, SetMaker, and Lightreach Compress) using React, TypeScript, and Tailwind CSS.
- Served as the sole frontend developer for Lightreach Compress — delivered UI from layout through interactions and tested against mock backend APIs.
- On SetMaker: revamped frontend UI and contributed to backend integrations for payments, subscriptions, and billing workflows.
- Refactored legacy frontend code to improve maintainability; collaborated through Git branching, pull requests, and code reviews.
- Implemented and maintained GitHub Actions (YAML) workflows for CI/CD, including automated testing, staging, and production deployments.

IT Intern / Manual Software QA Tester — Go Negosyo

Internship

- Performed manual software QA testing to validate application behavior before release.
- Identified issues and communicated findings clearly to support a stronger quality process.
- Supported IT operations and day-to-day technical workflows during the internship.

PROJECTS

JobTrack — Job Application Tracker
Solo-built React/TypeScript app for tracking applications, statuses, notes, search/filters, and dashboard stats with localStorage. Live: job-application-tracker-bay-psi.vercel.app | github.com/CJoshuaDJ/job-application-tracker

BugBoard — QA Bug Tracker
Solo-built React/TypeScript kanban for reporting and triaging bugs (severity, repro steps, drag-and-drop status moves, filters). Live: qa-bug-board.vercel.app | github.com/CJoshuaDJ/qa-bug-board

Personal Portfolio
React/TypeScript portfolio with responsive layout, light/dark theme, and project demos. Live: carl-joshua-portfolio-ten.vercel.app | github.com/CJoshuaDJ/carl-joshua-portfolio

EDUCATION

Bachelor of Science in Information Technology

Specialization: Web & Mobile Application Development
Far Eastern University – Institute of Technology | September 2021 – November 2025
Capstone Project — Project Manager
Alliance of Information Technology Students — Director for Publication

CERTIFICATIONS

- IT Specialist – Cybersecurity (Certiport) — November 2024
- Cisco DevNet Associate — April 2024
- Cisco CCNA (Introduction to Networks; Switching, Routing & Wireless Essentials; Enterprise Networking, Security & Automation) — 2023
- IT Specialist – Networking (Certiport) — July 2023
